

Gernot Minke

Building with Earth

Design and Technology of a Sustainable Architecture

HOCHSCHULE
LIECHTENSTEIN

Birkhauser - Publishers for Architecture
Basel • Berlin • Boston

I The technology of earth building

1 Introduction 11

- History 11
- Earth as a building material: the essentials" 13
- Improving indoor climate 15
- Prejudices against earth as a building material 18

2 The properties of earth as a building material 19

- Composition 19
- Tests used to analyse the composition of loam 21
- Effects of water 24
- Effects of vapour 29
- Influence of heat 31
- Strength 32
- pH-value 35
- Radioactivity 35
- Shelter against high-frequency electromagnetic radiation 35

3 Preparing of loam 36

- Soaking, crushing and mixing 36
- Sieving 38
- Mechanical slurring 38
- Water Curing 38
- Thinning 38

4 Improving the earth's characteristics by special treatment or additives 39

- Reduction of shrinkage cracks 39
- Stabilisation against water erosion 40
- Enhancement of binding force 42
- Increasing compressive strength 43
- Strength against abrasion 47
- Increasing thermal insulation 47

5 Rammed earthworks 52

- Formwork 53
- Tools 54
- Method of construction 55
- Shaping of openings 55
- New wall construction techniques 56
- Rammed earth domes 59
- Drying 59
- Labour input 60
- Thermal insulation 60
- Surface treatment 60

6 Working with earthen blocks 61

- History 61
- Production of earth blocks 62
- Material composition 65
- Laying earth blocks 65
- Surface treatment 66
- Fixing fasteners to walls 67
- Lightweight loam blocks 67
- Special acoustic green bricks 68

7 Large blocks and prefabricated panels 69

- Large blocks 69
- Prefabricated wall panels 70
- Floor slabs 70
- Floor tiles 71
- Extruded loam slabs 71

8 Direct forming with wet loam 72

- Traditional wet loam techniques 72
- The "Dunne loam loaf" technique 74
- The strang/ehm technique 75

9 Wet loam infill in skeleton structures 80

- Thrown loam 80
- Sprayed loam 80
- Rolls and bottles of straw loam 81
- Lightweight loam infill 82
- Infill with *stranglehm* and earth-filled hoses 82

10 Tamped, poured or pumped lightweight loam 83

- Formwork 83
- Tamped lightweight straw loam walls 83
- Tamped lightweight wood loam walls 84
- Tamped, poured or pumped lightweight mineral loam walls 85
- Pumped lightweight mineral loam floors 88
- Loam-filled hollow blocks 89
- Loam-filled hoses 90

11 Loam plasters 92

- Preparation of ground 92
- Composition of loam plaster 92
- Guidelines for plastering earth walls 94
- Sprayed plaster 95
- Lightweight mineral loam plaster 95
- Thrown plaster 95
- Plastered straw bale houses 95
- Wet formed plaster 96
- Protection of corners 96

12 Weather protection of loam surfaces 98

Consolidating the surface 98

Paints 98

Making surfaces water-repellent 101

Lime plasters 101

Shingles, planks and other covers 103

Structural methods 103

13 Repair of loam components 104

The occurrence of damage in loam components 104

Repair of cracks and joints with loam fillers 104

Repair of cracks and joints with other fillers 105

Repairing larger areas of damage 105

Retrofitting thermal insulation with lightweight loam 106

14 Designs of particular building elements 107

Joints 107

Particular wall designs 108

Intermediate floors 110

Rammed earth floorings 112

Inclined roofs filled with lightweight loam 115

Earth-covered roofs 115

Earth block vaults and domes 117

Earthen storage wall in winter gardens 131

Loam in bathrooms 132

Built-in furniture and sanitary objects from loam 133

Wall heating systems 134

Passive solar wall heating system 134

15 Earthquake-resistant building 135

Structural measures 136

Openings for doors and windows 140

Bamboo-reinforced rammed earth walls 141

Domes 144

Vaults 145

Textile walls with loam infill 147

Residence and studio at Gallina Canyon,
New Mexico, USA 162

Residence at Des Montes, near Taos,
New Mexico, USA 164

Casita Nuaanarpoq at Taos, New Mexico, USA 166

Residence and office at Bowen Mountain,
New South Wales, Australia 167

Vineyard Residence at Mornington Peninsula,
Victoria, Australia 168

Residence, Helensville, New Zealand 170

Residence, Sao Francisco Xavier, Brazil 172

Cultural, Educational and Sacral Buildings

Panafrican Institute for Development, Ouagadougou,
Burkina Faso 174

Office building, New Delhi, India 176

School at Solvig, Jarna, Sweden 178

Kindergarten, Sorsum, Germany 180

Cultural Centre, La Paz, Bolivia 182

Mosque, Wabern, Germany 183

Druk White Lotus School, Ladakh, India 184

Mii amo Spa at Sedona, Arizona, USA 186

Tourist resort at Baird Bay, Eyre Peninsula,
South Australia 188

Charles Sturt University at Thurgoona,
New South Wales, Australia 189

Youth Centre at Spandau, Berlin, Germany 190

Chapel of Reconciliation, Berlin, Germany 192

Center of Gravity Foundation Hall at Jemez Springs,
New Mexico, USA 194

Future prospects 196

Measures 197

Bibliographical references 198

Acknowledgements 199

Illustration credits 199

II Built examples

Residences

Two semi-detached houses, Kassel, Germany 150

Residence cum office, Kassel, Germany 153

Farmhouse, Wazipur, India 156

Honey House at Moab, Utah, USA 157

Three-family house, Stein on the Rhine,
Switzerland 158

Residence, La Paz, Bolivia 160

Residence, Turku, Finland 161
