| i List of Figures | xiii |
| "List of Tables | xiv |
| iSeries Editor's Foreword | xvii |
| fPreface to Second Edition | xxi |
| 'Preface to Third Edition | xxv |
| | |
| 'Part I: Patent processes and documentation | 1 |
| Principles of patenting | 3 |
| Legal Processes | 3 |
| Defining a patent | 4 |
| The concept of priority | 5 |
| The historical examination process for patents | 6 |
| The development of deferred examination and early publication | 9 |
| A typical sequence in modern patent examination | 10 |
| Patents as Information Tools | 12 |
| Language of publication | 12 |
| Patents as accessible documents | 14 |
| Patent families | 15 |
| Bibliographic Standards and the Form of a Patent Document | 19 |
| Special Document Types | 22 |
| Alternative forms of intellectual property (IP) rights | 23 |
| Patent amendments and corrections | 24 |
| Patent-related protection mechanisms | 25 |
| References | 28 |
