# Contents

<b>1</b>	<b>Introduction</b>	<b>3</b>
<b>2</b>	<b>Attitudes and Dual-process Attitude Formation</b>	<b>7</b>
<b>3</b>	<b>The ELM and the HSM</b>	<b>13</b>
<b>4</b>	<b>Dual-process Research In Information Systems</b>	<b>21</b>
<b>5</b>	<b>Dual-process Approaches to Understanding Attitude Change in Response to Content Generated by Expert Systems and Recommendation Agents</b>	<b>27</b>
5.1	Adoption of expert system advice — revising one's prior judgment	27
5.2	Adoption of expert system advice — disagreeing with it . .	28
5.3	Adoption of recommendation system suggestions — algorithm design	31
5.4	Adoption of recommendation system suggestions — design of peripheral cues	32
<b>6</b>	<b>Dual-process Approaches to Understanding Technology Acceptance</b>	<b>35</b>

6.1	Training for acceptance of a document management System	35
6.2	Training for acceptance of CASE tools	37
6.3	Training for acceptance of Excel	39
6.4	Intention to revisit a website	39
6.5	Formation of trust towards an e-commerce website . . . .	40
6.6	Formation of initial trust towards mobile banking	42
6.7	Online privacy assurance attitudes	44
6.8	Attitude toward electronic health records and concern for information privacy	45
6.9	Susceptibility to phishing	46
<b>7</b>	<b>Dual-process Approaches to e-WOM: Adoption of Content Contributed by Other Users</b>	<b>51</b>
7.1	Inferred helpfulness of online reviews	51
7.2	Inferred influence of online reviews on subsequent reviews .	53
7.3	Adoption of the information in online reviews	54
7.4	Credibility and adoption of online reviews	55
7.5	Adoption of website content	56
7.6	Adoption of online community content	57
7.7	Online communities — attitude toward one's relationship to it	59
<b>8</b>	<b>Dual-process Approaches to Understanding Knowledge Work and Computer-mediated Communication</b>	<b>61</b>
8.1	Knowledge management — adoption of email advice . . .	61
8.2	Dual-processing and CMC — theoretical model	63
8.3	Dual-processing and CMC — videoconferencing	63
8.4	Knowledge management — filtering in electronic networks of practice	65
8.5	Knowledge management — collaboration in electronic networks of practice	68
8.6	Application of DSS data to a decision task — metadata as peripheral cue	69

<b>9 Discussion</b>	<b>81</b>
9.1 IS-based heuristic cues	85
9.2 IS-based moderators	85
9.3 IS-relevant phenomena	87
<b>10 Conclusion</b>	<b>93</b>
<b>References</b>	<b>97</b>
