Introduction                     1
Why comparative politics?         1
  Understanding our own country   1
  Understanding other countries   2
  Constructing valid generalisations 2
The strengths and weakness of cross-national comparative political science 4
The pros and cons of cross-national comparative politics 5
  It cannot answer questions of values 5
  It lacks evidence 5
  It deals in probabilities not certainties or laws 6
  It suffers from the fatal flaw that what it can measure is not worth studying 6
  Every country in the world is unique so comparisons are impossible 7
The themes that run through the book - what to watch for 8
  The importance of institutions 9
  History matters 9
  The social and economic basis of politics 9
