**PART I PRIVATE EQUITY ENVIRONMENT** 1

1 **Introduction** 3
   1.1 Routes into private equity 3
   1.2 The limited partner's viewpoint 4
   1.3 The challenge of venture capital fund valuation 4
   1.4 Hard figures or gut instinct? 5
   1.5 Managing with fuzzy Figures 5
   1.6 Making the grades 5
   1.7 Outline 7

2 **Private Equity Market** 9
   2.1 Funds as intermediaries 10
   2.2 The problem of predicting success 15
      2.2.1 Can success be repeated? 15
      2.2.2 What is success? 17
      2.2.3 Tolerance for failure 18
   2.3 Broad segmentation of investment universe 18
      2.3.1 Institutional quality funds 18
      2.3.2 Newcomers 21
   2.4 Private equity market dynamics 22
      2.4.1 Boom-and-bust cycles 22
      2.4.2 The relationship between limited and general partners 23
      2.4.3 Life cycle of limited and general partner relationship 24
   2.5 Conclusion 26
6.3 Risk management 65
  6.3.1 Risk-measurement framework 65
  6.3.2 Risk control 65
  6.3.3 Risk mitigation 67
6.4 Tackling uncertainty 68
  6.4.1 Reducing uncertainty 69
  6.4.2 Strategies under uncertainty 69

Risk Framework 73
7.1 Market value 75
7.2 Market or credit risk? 77
  7.2.1 Market risk 77
  7.2.2 Credit risk 77
7.3 Conclusion 78
Appendix 7A: Incorporating private equity into the traditional VaR framework 79
  7A.1 VaR calculation based on reported financial data 79
  7A.2 Marking-to-model 80

Portfolio Design 81
8.1 Portfolio design framework 81
  8.1.1 Modern portfolio theory 81
  8.1.2 "Naive" allocation 83
8.2 Portfolio construction techniques 83
  8.2.1 Bottom-up approach 84
  8.2.2 Top-down approach 84
  8.2.3 Mixed approach 85
  8.2.4 Portfolio monitoring 87
8.3 Risk-return management approaches 88
  8.3.1 Core-satellite approach 88
  8.3.2 Diversification 90

Case Study 95
9.1 Looking for the optimal programme size 95
  9.1.1 Data 96
  9.1.2 The model 97
  9.1.3 Results 98
  9.1.4 Extension 100
  9.1.5 Conclusion 102
9.2 Overcoming entry barriers: long-term strategies 104
  9.2.1 Data 104
  9.2.2 Modelling 105
  9.2.3 Results 106
  9.2.4 Conclusion 106
Appendix 9A: Formulae 111
Appendix 9B: Skewness and kurtosis 112
Appendix 9C: Expected utility 113
10 The Management of Liquidity

10.1 Liquidity management problem

10.1.1 Modelling
10.1.2 Impact of liquidity returns
10.1.3 Over-commitments
10.1.4 Conclusion

10.2 Liquidity management approaches

10.2.1 Sources of liquidity
10.2.2 Foreign exchange risk
10.2.3 Distributions-in-kind
10.2.4 Consequences for performance measurement

10.3 Investment strategies for undrawn capital

10.3.1 Publicly quoted private equity
10.3.2 Other alternative assets

10.4 Cash flow projections

10.4.1 Estimates
10.4.2 Forecasting
10.4.3 Scenarios
10.4.4 Control framework

10.5 Conclusion

Appendix 10A: Cash flow estimation technique

10A.1 Cash flow estimate—example 1
10A.2 Cash flow estimate—example 2
10A.3 Cash flow estimate—example 3

Appendix 10B: Cumulative net cash flow statistics

Appendix 10C: Liquidity management tests

10C.1 Main tests
10C.2 Liquidity tests
10C.3 Performance tests
10C.4 Matching tests
10C.5 Scenario validity tests

PART III DESIGN TOOLS

11 Established Approaches to Fund Valuation

11.1 Bottom-up approach to private equity fund valuation
11.2 Inconsistency of valuations
11.3 NAVs do not tell the full picture
11.4 Portfolio companies cannot be valued in isolation
11.5 Conclusion

12 Benchmarking

12.1 Specific issues
12.2 Individual funds

12.2.1 Performance measures
12.2.2 Classical relative benchmarks
# 12.2.3 Other relative benchmarks
- Section 12.2.3 discusses other relative benchmarks.

# 12.2.4 Absolute benchmarks
- Section 12.2.4 explores absolute benchmarks.

# 12.3 Portfolio of funds

## 12.3.1 Performance measures
- Section 12.3.1 focuses on performance measures.

## 12.3.2 Benchmarks
- Section 12.3.2 delves into benchmarks.

# 13 A Prototype Internal Grading System

## 13.1 Grading of private equity funds
- Section 13.1 addresses the grading of private equity funds.

## 13.2 The NAV is not enough
- Section 13.2 highlights the limitations of the NAV.

## 13.3 Existing approaches

### 13.3.1 Fund rating by external agencies
- Section 13.3.1 covers fund rating by external agencies.

### 13.3.2 Internal VC fund assessment approaches
- Section 13.3.2 examines internal VC fund assessment approaches.

### 13.3.3 Comparison of approaches
- Section 13.3.3 compares various assessment approaches.

## 13.4 New approach to internal fund-grading system
- Section 13.4 introduces a new grading system.

### 13.4.1 Grading formalisation
- Section 13.4.1 outlines the formalisation of grading.

### 13.4.2 Expected performance grades
- Section 13.4.2 details expected performance grades.

## 13.5 Summary—NAV- and grading-based valuation
- Section 13.5 summarizes the NAV and grading-based valuation methods.

# 14 Fund Manager Selection Process

## 14.1 Relevance of fund manager selection
- Section 14.1 examines the relevance of fund manager selection.

## 14.2 Why due diligence?

### 14.2.1 Due diligence as a requirement for prudent investors
- Section 14.2.1 explains due diligence as a requirement for prudent investors.

### 14.2.2 Due diligence as a basis for better investment decisions
- Section 14.2.2 underscores due diligence as a basis for better investment decisions.

## 14.3 The due diligence process

### 14.3.1 Limitations
- Section 14.3.1 discusses the limitations of due diligence.

### 14.3.2 Due diligence questionnaires
- Section 14.3.2 explores due diligence questionnaires.

## 14.4 Fund manager selection process

### 14.4.1 Determination of the "wish list"
- Section 14.4.1 outlines the determination of the "wish list".

### 14.4.2 Deal sourcing
- Section 14.4.2 focuses on deal sourcing.

### 14.4.3 Screening
- Section 14.4.3 addresses the screening process.

### 14.4.4 Meet the team
- Section 14.4.4 covers meeting the team.

### 14.4.5 Evaluation
- Section 14.4.5 delves into evaluation.

### 14.4.6 In-depth due diligence
- Section 14.4.6 examines in-depth due diligence.

## 14.5 Decision and commitment
- Section 14.5 discusses the decision and commitment.

# 15 Qualitative Fund Scoring

## 15.1 Scoring approach
- Section 15.1 introduces the scoring approach.

## 15.2 Scoring dimensions

### 15.2.1 Management team skills
- Section 15.2.1 examines management team skills.

### 15.2.2 Management team stability
- Section 15.2.2 explores management team stability.

### 15.2.3 Management team motivation
- Section 15.2.3 investigates management team motivation.

### 15.2.4 Fund strategy
- Section 15.2.4 analyzes fund strategy.

### 15.2.5 Fund structure
- Section 15.2.5 studies fund structure.
19  Case Study: Saving Your Investments—Approaches to Restructuring  287
   19.1  The valley of tears  288
   19.2  The report to the board  289
   19.3  The terms of the restructuring  291
   19.4  Epilogue  293
   Appendix 19A: Investment proposal  293
   Appendix 19B: Track record  294
      19B.1  Greenlight 1  294
      19B.2  Greenlight buyout  295

20  Secondary Transactions  297
   20.1  Sellers and their motivations  297
   20.2  Buyers and their motivations  299
   20.3  Secondary market prices  300
      20.3.1  Factors for valuation  303
      20.3.2  Top-down analysis  304
      20.3.3  Bottom-up analysis  306
      20.3.4  Comparables  307
   20.4  Transactional issues  307
   20.5  The fund manager perspective  308

PART V  EMBRACING UNCERTAINTY  311

21  Deviating from Top Funds  313
   21.1  Strategic investments  313
   21.2  Policy objectives  314

22  Real Options  319
   22.1  Real options in private equity  319
   22.2  Real option analysis  321
   22.3  An expanded strategy and decision framework  322
      22.3.1  Decision framework  322
      22.3.2  Strategy framework  322
   Appendix 22A: A real option example  324

23  Beyond the J-curve  327
   23.1  Some do it better  327
   23.2  Deadly sins  327
   23.3  Structure instead of "gut instinct"  328
   23.4  Patience is a virtue  328
   23.5  Turning water into wine  329
